

PROGUARD provides modular power supplies, designed to make it easy and cost effective to power electrical locking systems.

The PS-3112 model provides 3-Amp of output current at 13.8 Volts. Output voltage is filtered and regulated, with built in battery charger and cam lock.

### *TECHNICAL SPECIFICATION*

Output Voltage 13.8Vdc.

Output Current 3A.

Line Regulation 0.07% Maximum

Load Regulation 1.5% Maximum

Temperature Stability 0.7% of Vout

Dimension 220(W) x 280(L) x 85(D) mm

1 Year Warrantee
